Comment. If the troop trains from Lieberose actually carried soldiers only, they were possibly recruits sent to the 7th Gds Mecz Div in the fell of 1952. They returned to components of the division at Frankfurt/Oder or fuerstemmalde in Recember 1952 after receiving basic training at the Lieberose troop training grounds.

25X1A

Comment. The flatears assembled in the Enfurt railroad district were mossibly used either for commercial shipments or for the transportation of engineer units of the Eighth Gds Army to Bad Kossen.
